## Deliverables:

**UI/UX Development:** The Website “muneemg.in” needs improvement in User Interface and User Experience.

For pages: Tax calculator, Blog, and Invoice Builder a whole new UI has to be built.

**Frontend Development:** There are 16 working pages namely Home, About, Contact, ITR filing, GST registration, TDS, legal, company reg, trademarks, link.html, food license.html, lis reg.html, copyright reg.html, patent reg.html, careers.html, partner.html. We plan to revamp the pages and make them look subtle.

There are 3 pages (tax-calculator, blog, invoice builder) that are broken and need to be built from scratch.

**Backend Development:** The backend includes the admin panel, user panel, and login functionality and maintenance of a database of users who filled the form.

We have to do URL routing because “https://muneemg.in/contact.html” is not a modern practice and we need to convert it to “https://muneemg.in/contact”. This has to be done for all 19 pages.

## Fee Summary

Deliverables will include:

- |                                                                                  |            |
|----------------------------------------------------------------------------------|------------|
| 1. <b>[Frontend]</b> 16 pages x Rs 750 + 3 broken pages x Rs 1,000               | - ₹ 15,000 |
